Form of supplement

In the annual supplement „Extruders“ of ALUMINIUM KURIER we are informing the market about extruders. Besides a large editorial part the table overview forms the center of this special issue. The publication of the extruder's data in the overview is free of charge. Company details are stored for editorial processing and are stored and processed within the scope of an editorial publication.

In order to publish your data please send us the completed form until Wednesday, 16. Oktober 2026. There is no legal claim to a publication. All questions refer to the company mentioned at "company address" including all subsidiaries. For company groups and sister companies you need to fill in separate forms.

Please participate also this year at the market overview. Only if your company is represented as well the readers can get a broad picture of the extrusion industry.

If you are not the right contact please forward this form to the responsible department. Thank you.

A) Company address

Company address:
Road:
ZIP code –town:
Country:
Phone:
E-Mail – website:

Contact for further enquiries about data on this form:

First name	second name	telephone	e-mail
------------	-------------	-----------	--------

Address of subsidiary, whose data are included in this form: (if necessary please use a second sheet)

Company address:
Road:
ZIP code –town:
Country:
Phone:
E-Mail – website:

B) Production and capacity

1: How many extrusion presses are operating in your company?

(Please mention only a number, e. g. "6" or "11"; for 2026 an estimation will suffice)

_____ in 2025

_____ in 2026

_____ in 2027

2: Number of extrusion presses by pressing force in tons (MN):

(Please mention only the number of presses currently operating)

Pressing force (MN)	in 2025	in 2026
5,99 – 9,9	_____	_____
10 – 15,9	_____	_____
16 – 19,9	_____	_____
20 – 29,9	_____	_____
30 – 49,9	_____	_____
more than 50	_____	_____

3: How high do you estimate the degree of capacity utilization of all presses currently operating?

_____ %

4: How high is the theoretical capacity utilization of all presses currently operating? (Please specify in tons based on operating in three shifts with 8 hours each on 240 working days per year)

_____ tons

5: How high is the actual production output?

(Please fill in the quantity in tons, e.g. 487.000; for 2026 an estimation will suffice)

_____ tons
in 2025

_____ tons
in 2026

_____ tons
in 2027

C) Technics and equipment

1: In which year the youngest press started operating?

In _____

2: In which year was the last press comprehensively modernized?

In _____

3: age of the presses	Age	quantity	modernization
	Up to 5 years	_____	_____
	5 to 10 years	_____	_____
	10 to 20 years	_____	_____
	20 to 30 years	_____	_____
	Older than 30 years	_____	_____

4: Which companies have manufactured the presses?

(Please mention the manufacturers; random order without evaluation)

5: Which maximum profile dimensions can be produced?

(In millimeters please, e. g. 270 x 375 mm)

_____ x _____ mm

6: Which maximum profile length can be extruded dependent on the run out table?

_____m

7: Diameter of container: *(In millimeters)*

_____smallest and _____largest diameter

8: Are there so-called "specialities" pressed in your factories?

(Please list foci of production like isolated profiles, profile systems, etc.)

☐ Micro-Tubing	☐ Wires	☐ Chrome plating/surface finishing	☐ Special alloys
☐ _____	☐ _____	☐ _____	☐ _____
☐ _____	☐ _____	☐ _____	☐ _____

D) Markets and customers

1: For which markets are you producing mainly?

(Please enter numbers in percent in relation to the actual output in tons)

_____	% Automotive supply industry
_____	% Automobile manufacturers directly
_____	% Aviation and aerospace sector
_____	% Electrical and electronics industry
_____	% Tooling and machine engineering
_____	% Building profiles (incl. façade building and sun protection)
_____	% Furniture and fitting technology
_____	% Component assembly, e. g. heat exchangers
_____	% Ship and yacht building
_____	% _____
_____	% _____
_____	% _____

2: In which of the markets mentioned below do you see growing or declining sales potential?
(Please mark with + = growing or – = declining)

Automotive supply industry	_____
Automobile manufacturers directly	_____
Aviation and aerospace sector	_____
Electrical and electronics industry	_____
Tooling and machine engineering	_____
Building profiles (incl. façade building and sun protection)	_____
Furniture and fitting technology	_____
Component assembly, e. g. heat exchangers	_____
Ship and yacht building	_____
_____	_____

3: Which markets – from your point of view – offer the biggest potential for sales and quantities for the whole extrusion industry? *(Please mark with + = growing)*

	Sales	Quantity
Automotive supply industry	_____	_____
Automobile manufacturers directly	_____	_____
Aviation and aerospace sector	_____	_____
Electrical and electronics industry	_____	_____
Tooling and machine engineering	_____	_____
Building profiles (incl. façade building and sun protection)	_____	_____
Furniture and fitting technology	_____	_____
Component assembly, e. g. heat exchangers	_____	_____
Ship and yacht building	_____	_____
_____	_____	_____

4: How do you find out about innovations in the supplier industry?

☐ Trade journals ☐ Digital media ☐ Social media ☐ Individual research
☐ networks ☐ seminars ☐ other _____

Are you interested in further information about the supplement "STRANGPRESSTECHNIK" (Extrusion Techniques)?
 Would you like to publish a company portrait or show your customers how efficiently your extrusion line works?
 Then contact Ellen Buntenbruch at our advertising department and ask for an offer by mail:
ellen.buntenbruch@pse-redaktion.de

**You have just invested,
 expanded or replaced machines?**

If you want to send us a press release or to report
 about interesting projects for your customers please
 send us your informations in german language.
 Contact our editor-in-chief, Stefan Elgaß, at tel. +49
 (0)8171/9118-88 or elgass@pse-redaktion.de.
