Form of supplement

In the annual supplement metall-markt.net of ALUMINIUM KURIER we are informing the market about extruders. Besides a large editorial part the table overview forms the center of this special issue. The publication of the extruder's data in the overview is free of charge.

In order to publish your data please send us the completed form until **Monday, 14. Oktober 2019**. There is no legal claim to a publication. All questions refer to the company mentioned at "company address" including all subsidiaries. For company groups and sister companies you need to fill in separate forms.

Please participate also this year at the market overview. Only if your company is represented as well the readers can get a broad picture of the extrusion industry.

If you are not the right contact please forward this form to the responsible department. Thank you.

A) Company address

Company address:

Road:

ZIP code –town:

Country

Phone – fax:

E-Mail – website:

Please use our
Data from the
last extruders
overview

Contact for further enquiries about data on this form:

First name

second name

telephone

e-mail

Address of subsidiary, whose data are included in this form (if necessary please use a second sheet):

Company address:

Road:

ZIP code –town:

Country:

Phone – fax:

E-Mail – website:

B) Production and capacity

1: How many extrusion presses are operating in your company?

(Please mention only a number, e. g. "6" or "11"; for 2020 an estimation will suffice)

in 2018

in 2019

in 2020

2: Number of extrusion presses by pressing force in tons (MN):

(Please mention only the number of presses currently operating)

Pressing force (MN)	in 2018	in 2019
5,99 – 9,9	_____	_____
10 – 15,9	_____	_____
16 – 19,9	_____	_____
20 – 29,9	_____	_____
30 – 49,9	_____	_____
more than 50	_____	_____

3: How high do you estimate the degree of capacity utilization of all presses currently operating?

(in percent) _____%

4: How high is the theoretical capacity utilization of all presses currently operating? (Please specify in tons based on operating in three shifts with 8 hours each on 240 working days per year)

_____ tons

5: How high is the actual production output?

(Please fill in the quantity in tons, e.g. 487.000; for 2020 an estimation will suffice)

_____ tons _____ tons _____ tons
in 2018 in 2019 in 2020

C) Technics and equipment

1: In which year the youngest press started operating? In _____

2: In which year was the last press comprehensively modernized? In _____

3: age of the presses

Age	quantity	modernization
Up to 5 years	_____	_____
5 to 10 years	_____	_____
10 to 20 years	_____	_____
20 to 30 years	_____	_____
Older than 30 years	_____	_____

4: Which companies have manufactured the presses?

(Please mention the manufacturers; random order without evaluation)

.....
.....
.....

5: Which maximum profile dimensions can be produced?

(In millimeters please, e. g. 270 x 375 mm)

_____ x _____ mm

6: Which maximum profile length can be extruded dependent on the run out table?

_____m

7: Diameter of container:

(In millimeters)

_____smallest and _____largest diameter

8: Are there so-called "specialities" pressed in your factories?

(Please list foci of production like isolated profiles, profile systems, etc.)

.....
.....
.....

D) Markets and customers

1: For which markets are you producing mainly?

(Please enter numbers in percent in relation to the actual output in tons in 2018)

- _____ % Automotive supply industry
- _____ % Automobile manufacturers directly
- _____ % Aviation and aerospace sector
- _____ % Electrical and electronics industry
- _____ % Tooling and machine engineering
- _____ % Building profiles (incl. façade building and sun protection)
- _____ % Furniture and fitting technology
- _____ % Component assembly, e. g. heat exchangers
- _____ % Ship and yacht building
- _____ % _____
- _____ % _____
- _____ % _____

2: In which of the markets mentioned below do you see growing or declining sales potential?
(Please mark with + = growing or - = declining)

- _____ Automotive supply industry
- _____ Automobile manufacturers directly
- _____ Aviation and aerospace sector
- _____ Electrical and electronics industry
- _____ Tooling and machine engineering
- _____ Building profiles (incl. façade building and sun protection)
- _____ Furniture and fitting technology
- _____ Component assembly, e. g. heat exchangers
- _____ Ship and yacht building
- _____
- _____
- _____

3: Which markets – from your point of view – offer the biggest potential for sales and quantities for the whole extrusion industry? (Please mark with + = growing)

	Sales	Quantity
Automotive supply industry	_____	_____
Automobile manufacturers directly	_____	_____
Aviation and aerospace sector	_____	_____
Electrical and electronics industry	_____	_____
Tooling and machine engineering	_____	_____
Building profiles (incl. façade building and sun protection)	_____	_____
Furniture and fitting technology	_____	_____
Component assembly, e. g. heat exchangers	_____	_____
Ship and yacht building	_____	_____
_____	_____	_____
_____	_____	_____
_____	_____	_____

Are you interested in further information about the supplement "STRANGPRESSTECHNIK" (Extrusion Techniques)?
Would you like to publish a company portrait or show your customers how efficiently your extrusion line works?
Then contact Monika Wagner at our advertising department and ask for an offer by mail: wagner@alu-news.de.

You have just invested, expanded or replaced machines?
If you want to send us a press release or to report about interesting projects for your customers please in german language.
Contact our editor-in-chief, Stefan Elgass, at tel. +49 (0)8171/9118-88 or elgass@pse-redaktion.de.
